## SUMMARY

---

Software engineer and researcher focused on data management and parallel computing. Strong background in relational and spatial data processing, query optimization, and large-scale system design. Experienced in C++, Java, and Python, developing algorithms and frameworks for high-performance data systems. Looking to work in a challenging environment where I can apply my expertise and continue building my technical skills as part of an engineering team.

## WORK EXPERIENCE

---

**Archimedes unit of Athena Research Center, Athens, Greece**

Feb 2025 - present

### Postdoctoral Researcher

- Member of the data science team, focusing on multi-dimensional and vector data.
- Designing and implementing indexing and search methods for multi-dimensional and vector data.

**Dept. of Computer Science & Engineering, Univ. of Ioannina, Greece**

Jan 2024 – Dec 2024

### Doctoral Researcher

Participated in the Greek funding project [MESA](#): In-memory Spatial Analytics Made Scalable

- Implemented novel parallel and non-parallel index structures for spatial queries, including spatial join, range queries, and k-NN.
- Contributed to the design and development of a prototype distributed spatial data management framework using MPI and OpenMP.

**Information Management Systems Institute, Athens, Greece**

Dec 2012 – Dec 2023

### Software Engineer

Participated in several Greek and European funding projects, including:

- [MORE](#): Management of Real-time Energy data.  
(Oct 2020 – Dec 2023)
  - Developed a continuous evaluation module for edge-based sliding-window aggregations in Java.
  - Built parallel and distributed pattern extraction methods using Python and Dask, improving processing efficiency.
- [Amnesia](#): A Powerful Data Anonymization Platform.  
(Aug 2015 – Sep 2020)
  - Designed and built the framework from scratch as the lead software engineer.
- [MoDisSENSE](#): A Distributed Spatio-Temporal and Textual Processing Platform for Social.  
(Dec 2012 - Jul 2015)
  - Engineered scalable algorithms for POI discovery and trajectory reconstruction using Hadoop, HBase, and PostGIS.
  - Designed and implemented web services supporting POI discovery and recommendation.

**Institute of CS, Johannes Gutenberg University Mainz, Germany**

May 2022 – Jul 2022

### Research Visitor

- PhD internship at the Institute of Computer Science with Professor Panagiotis Bouros, focusing on spatial joins.

**Hellenic Army Information Technology Support Center, Athens, Greece**

Apr 2017 – Nov 2018

### Software Engineer

- Maintain and update code for multiple Java applications, while developing new features.

## AWARDS

---

3rd place - [Future of Database Programming Contest](#) (March 2025, Athens).

# EDUCATION

---

<b>Ph.D., Computer Science</b> Department of Computer Science & Engineering, University of Ioannina <i>Thesis: In-memory Indexing for Parallel Processing of Single and Multi-Dimensional Queries</i>	Jul 2019 – Dec 2024
<b>M.Sc., Computing Systems: Software and Hardware, Computer Science</b> Department of Informatics and Telecommunications, University of Athens <i>Thesis: Complex Event Processing (CEP) for Intrusion Detection</i>	Nov 2012 – Sep 2016
<b>B.Sc., Computer Science</b> Department of Informatics and Telecommunications, University of Athens <i>Thesis: Clustering Wikipedia resources</i>	Sep 2006 – Jun 2012

# TECHNICAL SKILLS

---

Languages	C, C++, Java, Python
Databases	MySQL, PostgreSQL, PostGIS, HBase
Parallel & Distributed Systems	Hadoop, Spark, Dask, OpenMP, SIMD, MPI
Frameworks	Spring
Web Development	JavaScript, JSP, JSF, PHP
Operating Systems	Ubuntu, Microsoft Windows, macOS

# ACADEMIC SERVICE

---

Member of Program Committee	TSAS 2023, ICDE 2026, IEEE BigData 2025
External Reviewer	ICDE 2019-2025, VLDB 2019-2023, SIGMOD 2020, SIGSPATIAL 2020-2023, EDBT 2021-2025, ICDM 2025

# SELECTED PUBLICATIONS
